

This is the 1st affidavit of Marie-louise Felicia Allen in this case
and was made on 18 December 2025

No. S-259504

Vancouver registry

In the Supreme Court of British Columbia

Between

Marie-louise Felicia Allen

Petitioner
Plaintiff(s)

And

Attorney General Of British Columbia

Respondent
Defendant(s)

AFFIDAVIT

I, Marie-louise Felicia Allen, of 10136 King George Boulevard suite 1013, Surrey BC., educator, dog and horse trainer and rehabilitator for nearly fifty years, ~~SWEAR (OR AFFIRM)~~ THAT:

1. I am the self-represented plaintiff in this proceeding, and I confirm that the information in my petition and herein is true and correct to the best of my knowledge.

Background

2. I was employed for nearly fifty years operating an equine (horse) business and farm animal rescue, Epona Stable and Farms, started by my parents in 1975 on a property with acreage they had purchased in North Vancouver, BC Canada. **Attached as exhibit "1"** is information on Epona Stable and Farms (closed now).

3. I am the founder of the Standardbred Horse Fan Club run by volunteers that rescue former race horses to spare them slaughter providing veterinary care, retraining and rehoming when the horses have fully recovered from their racing career injuries and trauma. The society celebrated its 20th anniversary last year. **Attached as exhibit "2"** is information on the Standardbred Horse Fan Club.

4. I am the founder of Equine Assisted Natural Healing (EANH), the first non-riding horse therapy for children on the spectrum and youth at risk in Canada. EANH is now widely accepted and recognized under the umbrella of “animal therapy”. **Attached as exhibit “3”** is information on the non-riding therapy program.
5. I am also the founder of True Natural Horsemanship (TNH) which teaches how to humanely work with horses without the use of painful equipment, **attached as exhibit “4”** is information on TNH. I am the published author of a puppy training guide “Good Puppy!” I am the founder of the non-profit, incorporated Society For Public Guardians and Animals which represents people with pets in the province and is run by volunteers, **attached as exhibit “5”** is information on the society.
6. I am hoping to realize an extremely special project “Amity” for youth at risk and individuals with addiction, which provides healing with the help of farm animal therapy, learning a new purpose by living on, and cultivating on farm produce, learning life skills and actively practising a lifestyle without drugs as part of the rehabilitation. **Attached as exhibit “6”** is the cover page on the proposal which the provincial government has so far shown interest in.
7. Living in supportive housing with individuals struggling with addiction, I have more experience with people with addiction and their natural trust of animals than most.
8. **Attached as exhibits “7”, “8” and “9”** is media coverage/reviews of my work over the years.
9. My education consists of university, two -time college graduate and various certifications (Red Cross First Aid, etc). I do not have a criminal record and until recently, had never been charged with animal abuse until the tragedy with a little therapy miniature pony whom I had raised since a baby for eleven years. **Attached as exhibit “10”** is Bentley, the pony, as a baby and as an adult shortly before his unfortunate accident.
10. The miniature therapy pony hurt himself unexpectedly in the barn. He was placed under the care of a named equine specialist, Dr. Hermann Geertsema, DVM and an equine surgeon, Joanna Elizabeth Virgin, DVM, MS, DACVS (LA) Diplomate ACVS (Large Animal) (“veterinary team”). The pony was on a treatment plan with a documented prognosis and upcoming surgery. The prognosis by the veterinary team for recovery was “good”.

11. Briefly below are the credentials of my veterinary team:

**Dr. Hermann Geertsema, DVM
Proprietor, Total Equine Veterinary Services
Equine Specialist Veterinarian**

Dr. Geertsema graduated from the University of Guelph in 1994 with a doctorate degree in veterinary medicine and has practised as an equine specialist for thirty years. His practice located in Langley, B.C., *Total Equine Veterinary Services*, offers both fully mobile services as well as a fully equipped clinic with an in-house laboratory. Prior to becoming a veterinarian, Dr Geertsema was a certified horse blacksmith with a specialized interest in lameness and corrective, therapeutic shoeing. Dr. Geertsema passed away unexpectedly in October, 2023.

**Dr. Joanna Elizabeth Virgin, DVM, MS, DACVS (LA) Diplomate ACVS (Large Animal)
Veterinary Surgeon**

Dr. Joanna Virgin is a board certified veterinary surgeon and a specialist in equines (Diplomate ACVS in large animals). Dr. Virgin is licensed to practice in British Columbia by the College of Veterinarians in British Columbia and as a veterinary surgeon who is board-certified by the American College Of Veterinary Surgeons since 2011. A veterinary surgeon who is board-certified by the American College Of Veterinary Surgeons has undergone extensive additional training after veterinary school in order to become a specialist. Dr. Virgin is highly regarded for her equine knowledge and treatment experience.

12. The BC SPCA became involved through a complaint. The BC SPCA constable went to my barn and saw the pony whom she did not find to be in distress, her notes from the visit ***are attached as exhibit “11”.***

13. The next day the BC SPCA brought in a non-treating veterinarian to assess the pony. The pony was seized and euthanized without consultation with my treating veterinary team. Neither of my veterinary team had complained about me. Neither knew of the complaint submitted to the BC SPCA.

14. At the time of the pony's seizure I was provided with a Notice Of Disposition by the BC SPCA constable outlining the review and appeal processes. I requested a review and appeal which failed because the pony had been destroyed.

15. I was then charged and convicted as a self-represented litigant under *section 24(1)* of the Prevention Of Cruelty To Animals Act. *Legal Aid* had promised a solicitor, however eight

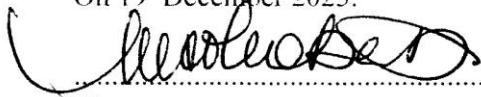

weeks before the trial started that was retracted. Crown seeks sentencing which includes "a ban on owning animals."

16. The expenses for veterinary treatment and special care provisions for the duration of treatment of the pony was close to \$5,000. If the BC SPCA had not seized the pony he would be alive today.
17. I was crushed, in shock and went into a deep depression at the loss of the pony. The loss of the little pony whom I had raised since childhood was too much to bear.
18. I was eventually apprehended under the Mental Health Act by the RCMP and released the same day. The BC SPCA had in the interval removed my other therapy horses from the barn. I felt that my life was over.
19. Under the care of a psychiatrist, I was diagnosed with a resulting depressive disorder. I have been living on a provincial Disability benefit since in supportive housing. Attached is the letter from the provincial government confirming my Disability standing *as exhibit "12"*.
20. There is an existing claim in the BC Supreme court which I filed in 2023 with the BC SPCA named as defendant for the return of my therapy horses since it is alleged that they were seized unlawfully.
21. I am trying to rebuild my life. I am trying to restore my livelihood.
22. *Attached as exhibit "13"* is Dr. Monica Marcu's affidavit. Her German Shepherd dog scheduled for surgery was seized by the BC SPCA at *para 5 and 6*.
23. I will rely on case law where others with animals in veterinary treatment have had their animals seized.

THE EPONA STABLE AND FARM ANIMAL RESCUE, EST 1975

The website features a banner with a classical statue of a horse and the text "Epona" and "goddess of horses". Below the banner, a welcome message reads: "WELCOME to the wonderful world of horses! EPONA STABLE AND FARMS". A sub-message states: "Since 1975, we have been loving, living and teaching about horses. Epona's programs have something for everyone. We look forward to sharing our passion." A "More info" button is present. Below the banner are four program sections: "THE EPONA RESCUE" (with a photo of a horse), "TRUE NATURAL HORSEMANSHIP" (with a logo), "HEALING WITH HORSES" (with a photo of a person interacting with a horse), and "THE GIDDY FIT PROGRAM" (with a logo).

THE EPONA RESCUE
Horses, ponies, pigs, dogs, cats, rabbits, birds, turtles have been rescued and many rehomed. Meet our permanent

HOME SERVICES ABOUT TESTIMONIALS CONTACT

|| EQUINE ASSISTED NATURAL HEALING SERVICES ||

Equine Assisted Natural Healing experiential private sessions or workshops are provided for everyone. Please see below for the healing with horses specializations. No horse experience is needed.

Reconnecting

Horses have the ability to reach deep into our inner emotions and bring calm to distress, relaxation to anxiety, and order to disharmony ~ silently and invisibly.

The workshops or private sessions are for anyone who feels disconnected, over-burdened, stressed out, isolated, depressed, loss, or out of sync.

[READ MORE](#)

Autism

One of the creator's miracles is the gift of the autistic child and the horse in communication. The horse finds a place to touch within the being and the child responds and vice versa. This happens spontaneously and naturally without any assistance. A child that is deemed to rarely or barely communicate, communicates with a horse.

[READ MORE](#)

Youth At Risk

There is much kinship to be shared, to learn from and to grow. Horses show us a path to healing, recovering and finding inner peace and happiness without us even knowing the transformative effects. Horses often mirror our selves by their instinctive reactions and this can be helpful in personal growth.

[READ MORE](#)

Terminal Illness

Sir Winston Churchill once said, "There is something about the outside of a horse that is good for the inside of a man." Horses give us their sensitivity, beauty and natural intuitive equine healing which evaporates fears, anxiety and makes us feel real Good. Spend an EANH session with a therapeutic horse and feel a glow from the inside brimming out!

[READ MORE](#)

Veterans, PTSD/OSI

Healing is a journey with others along the way. Horses are intuitive, sensitive and very social reaching out with their extraordinary equine intuitiveness to bring inner harmony and evaporation of negative emotions. For a veteran living with PTSD/OSI it feels good to feel good, to feel oneself, to feel one's being. Horses can bring inner emotional harmony out of chaos.

[READ MORE](#)

Relationships

Equine Assisted Natural Healing is effective for improving relationships dealing with divorce, marital problems, family communication dynamics, conflict situations between family member(s) or separations. EANH horse therapy is gentle, peaceful and harmonious which are the necessary healing qualities toward resolution and effective communication.

Country fair to support rescued horses

Port Coquitlam event Sunday offers families a chance to enjoy a farm experience and help care for rescued horses

Diane Strandberg
Jul 9, 2015 3:11 PM

Horse trainer Felicia Allen with Lacey, a standardbred pacing horse she rescued after it was retired from the racetrack. You can join Allen and her family of rescued horses to celebrate 2015 Canada Standardbred Horse Day on Sunday, July 12 at Epona Stable in Port Coquitlam. | Diane Strandberg/Tri-City News

Seven horses leisurely strolling a paddock in a green field off Devon Road in Port Coquitlam look as pampered and relaxed as Hollywood stars.

But their retirement wouldn't have been so happy if it wasn't for a group of volunteers with the Standardbred Horse Fan Club who raise money to rescue them.

And this Sunday (July 12), Tri-City families can meet the animals and contribute to their care during a country fair and silent auction.

"They are wonderful horses, they have beautiful personalities," said Felicia Allen of the race horses that were once used to pull a two-wheeled cart called a sulky.

The Denmark-born Allen has been training horses for more than 50 years and operates Epona Stable in PoCo. She took up horse rescue as a sideline several years ago and founded the fan club to support the program and raise funds. Many of the horses would likely end up in the slaughterhouse and be sold for horse meat without intervention, she said.

REVIEWS OF FELICIA ALLEN

 eponastable.ca

As a longstanding contributor to social justice and animal welfare causes, Felicia has had a profound impact on the treatment of less fortunate animals and people. Her natural horsemanship methods are internationally recognized by her peers and by experts."

Dr. Kedrick James

University Of British Columbia

Hello, My name is Sarah and I work in the Surrey School District in the Safe Schools Dept. with youth at risk. I work closely with several young people who struggle with behaviour challenges, difficult home situations, and trouble making positive connections, and we feel very strongly about the connections that can be made with these youth and animals - horses in particular.

Sarah McKay

Manager, Safe Schools department, District of Surrey

Received by email in response to Felicia's Equine Assisted Natural Healing (EANH) program.

Thank you, Felicia, for understanding the need to help us explore the ability of the horse to communicate with us on a deep level by freely providing a 'narrative video' on your website. I often tell anyone who is interested about the seemingly magical between horse and human, but the 'right' words are elusive. The story you tell has helped me find those words!

Best,

Cynthia Orman

This wonderful experience with the amazing instructor, Felicia, is an experience for all. Learning to respect and safely share some unforgettable moments. Much more is taught than the basics and everything that happens while you are there helps you realize what a wonderful gift it is to spend even the smallest of moments with these gentle creatures. This is so much more than a learning environment - this whole farm operates on love.

THANK YOU, FELICIA.

THANK , YOU LACEY.

We truly left a piece of our hearts with you both.

Cheryl Tatelman

September 30, 2015

Felicia's love of horses is clear and she is a great role model to learn from.

Tri-City News

"The good news is that Wilbur will be returned to me," said Allen to The News. "I am seeking a home for him, and trying to find a home for a pot-bellied pig is just about impossible."

She said without the horses she is not able to run her equine therapy business and she is concerned the BC SPCA will destroy the horses, which will destroy her livelihood.

"I am hopeful that the four horses will be returned. As long as the BC SPCA doesn't kill them, we have a fighting chance," she said.

Colleen Flanagan

Maple Ridge-Pitt Meadows News, June 17, 2023

Felicia's Post Note: The BC SPCA decided to kill Oliver and Star in the same month without notice to anyone as required by law.

Highly recommend! Felicia is a true horse lover! She works and rehabilitates rescue horses, offers lessons and workshops. 5 stars all the way!

A commissioner for taking affidavits for British Columbia

AFFIDAVIT

I, Dr Monica Marcu, RN, PharmD, PhD, of Redmond, USA, and McBride, BC, Canada, of profession medical/health care provider and scientist, SWEAR THAT:

1. I have over 45 years of medicine expertise, two doctoral degrees and have performed many medical duties and cared for hundreds of patients, students, in various medical venues. I also have excellent expertise in veterinary medicine and over 30 years of work with German Shepherd Dogs (GSDs) – care, training, breeding, healing and more. I am internationally recognized as a specialist in nutrition and disease prevention with nutrition.
2. We had a passion and hobby and loved GSDs and we have brought them to our large farm, 155 acres in McBride BC, so they can live naturally as shepherds and farm dogs- as they were meant to live as breed. We offered them outstanding conditions of space, medical and professional care, mostly fresh home-made food, multiple opportunities for socializing, play, run and more. Our dogs were mostly free within the fenced property.
3. In the morning of July 30th 2024, unexpectedly and violently, BC SPCA supported by the local RCMP have trespassed our property and farm and ultimately have stolen ALL our beloved GSDs - our family members, including the most seniors and my medical service dog – over 12 y old. Some of these dogs were treated by me for minor problems such as wounds, scratches, diarrhea, ongoing deworming, prenatal and puppy care, joint and arthritis support – a third of my GSDs were senior over 8 y of age (8-13 y). These senior GSDs were in great condition, very active, none had cancers, immune problems, or handicaps. They all could run and play energetically.
4. All these dogs were under my care and medical supervision, but when there was a more serious health problem such as surgeries, we took our dogs to Jasper, AB, vet clinic to Dr Janet Jones. They know us for about 10 years. Our closest functional veterinary clinic was 2 h away, in Jasper, AB.
5. A senior (13 y old) GSD was scheduled for a minor **surgery for 31 July** in Jasper, after her surgery was postponed twice due to the huge fires in Jasper and ongoing evacuations. We also were under the threat of evacuation due to a close by fire. Another GSD was waiting for a special vet consultation

and an intervention I could not do, but he was not that serious, and priority was given to other customers due to very scarce resources available at the Jasper clinic that time.

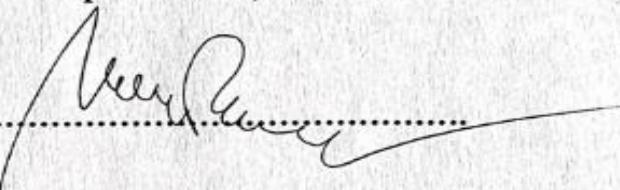

6. BC SPCA have forcibly removed my senior beloved GSD, *despite her being scheduled next day for surgery* and later claimed that I was not caring for her (and other dogs). This was simply NOT true, just like most BC SPCA false allegations about our care, living conditions, and dogs overall. None of our beloved GSDs were neglected, ever, all medical needs were met by me or our vets in Canada or USA.
7. The theft of our beloved GSDs, especially the seniors who were probably murdered by BC SPCA was extremely traumatic for me and my family. These dogs lived with us all their long lives very well, most were born in my hands, and we have invested tens of hours of work and hundreds of thousands of dollars in their care, training, registrations, travels, etc. BC SPCA never offered any transparency or news about my beloved children!
8. I have asked for an independent vet to be allowed to observe the status of my dogs (as it is allowed in USA, reasonably) BUT I was refused. Any of my demands to see, observe, assist or get news about my dogs – especially that some were starting to die at the pound- were totally refused by BC SPCA.
9. BC SPCA also removed another senior (but healthy and active) GSD, my *medical service dog*, who had a small hotspot on a back leg. He was under my care successfully. The theft of a medical service dog is a high crime in most civilized countries and it is not allowed even in case of criminals. But I was deprived of his vital presence, and left completely alone, without any protection on a property in the middle of the forest - kilometers from closest neighbor.
10. After 5 months this service senior dog was returned to me after I paid thousands of dollars for *teeth extraction* that was enforced by BC SPCA - I picked him up from Chilliwack BC SPCA site. I went there with a witness so he can also observe the condition of my beloved GSD. We were shocked to see my dog's condition: he was badly limping, overweight but with serious hind sarcopenia (loss of muscle mass), he defecated twice and peed three times within the first 10 min. of walking him outside of the BC SPCA facility. He was in a small cage, sitting on a cold cement floor when I picked him, very detrimental to his joints. At home, he refused to eat anything but very soft foods, and only served by hand, as he was in serious

pain after the dental procedures I was forced to pay in order to retrieve him from BC SPCA.

11. It took me more than 4 months to improve the very poor health condition of this senior dog, but I was able to help him gain back lost muscle, eat normally and completely remove his limping. He now walks normally and is very active, multiple witnesses have seen his *miraculous recovery* under my medical care.
12. The theft of our GSDs and the multiple illegalities (trespasses without any warrant, endangering my life for hours, obstruction of justice and refusal of witnesses, vandalism, and others) perpetrated by BC SPCA and local RCMP are under investigation and more actions will follow.
13. I have never seen again my senior 13 y old GSD who was scheduled for surgery. I took care of her for 13 years and she was much beloved in my family. Other than the small neck wound, she had no other noticeable health problems, and she was very powerful and active at the time BC SPCA stole her.

I declare under penalty of perjury (28 U.S. Code § 1746) that the foregoing is true and correct.

Executed on September 8th, 2025.
